

Git Flow

...

A strict model to manage your workflow

About me

Outline

- Git
- Workflows
- Git Flow
- Demo
- Considerations
- Q&A

Git

- Created by Linus Torvalds
- Distributed Revision Control System
- Local Repository
- Branching

Workflows

- Centralized
- Feature branch
- Forking
- Gitflow

Git Flow

- Created by Vincent Driessen
- Strict branch model
 - Historical (Master, Develop)
 - Feature
 - Release
 - Hotfix
- Plugin (OS X, Linux, Windows)

Git Flow

Git Flow

It's demo time!

Considerations

PROs

- Scrum
- Clean repo history
- Strict workflow
- Release management

CONs

- Not useful at project start up
- Coupled feature

Questions?

Thank you!!
